

EOC Management and Operations (G-775)

Redmond, WA – September 9-11, 2014

COURSE DESCRIPTION

This three day course is designed to examine the role, design, and functions of the Emergency Operations Center (EOC), a component of a multi-agency coordination system. The course provides training about staffing and organization, information, systems, communications and equipment needs at the EOC; activating and deactivating the EOC; EOC operations; and EOC training and exercising.

COURSE OBJECTIVES

After completing this course, participants will be able to:

- Identify the multiple roles and responsibilities of a modern-day EOC.
- Differentiate between tactical and strategic emergency management.
- Build and manage effective organizational structures within an EOC.
- Promote effective EOC operations through plans, procedures, coordination, and documentation.
- Describe the role and challenges of an EOC during the transition to recovery.

TARGET AUDIENCE

This course is designed for Federal, State, and local emergency management officials, first responders, incident command staff, private industry and volunteer agency personnel responsible for coordinating activities during a disaster.
